Lot III I 129B bis Soanierana
Antananarivo 101, MADAGASCAR

LANGUAGES

- English (C1) - IELTS : 7
- French (C1)

SKILLS

- **Programmation :** Python, Java, C++, SQL, JavaScript
- **Web Development:** Fullstack MERN
- **Mobile Development:** React Native
- **BI & Data Analysis :** Spreadsheet, Power BI, Excel, Talend, Knime
- **Soft Skills** : Communication skills, Problem-solving, teamwork
- **Miscellaneous** : GIS (QGis), Agile, Data Mining, ETL, Big Data

PROFESSIONAL CERTIFICATES

- GOOGLE DATA ANALYTICS
- GOOGLE IT Support
- IBM Data Science
- JAVASCRIPT Foundations by Mozilla

EXTRACURRICULARIES :

- Graphic Design with Adobe Illustrator & Adobe Photoshop
- Game Design with Unity & C#

PROFILE

Currently an AI Developer, but primarily a Mid-Level Data Scientist with strong interests in AI & Data Engineering, and Business Intelligence. Holding a Bachelor's degree in Computer Science (Information Systems) from Cairo University and hands-on experience from UNFPA, I combine machine learning with BI tools to transform data into actionable insights.

EDUCATION

Engineering in AI & Data — Aug 2025 - Present
INSI - Institut National Supérieur d'Informatique | **ANTANANARIVO**

B.Sc. Computer Science — Feb. 2019 - May 2023
Faculty of Computers and Artificial Intelligence | CAIRO University

Mathématiques et Informatiques — Oct. 2016 - Oct 2018
Faculté des Sciences | Université d'Antananarivo

I interrupted my studies after two years for a scholarship opportunity abroad for promising Malagasy students.

EXPERIENCES

ALAXIONE (REMOTE) — Jan 2026 - Present
AI Developper

- Responsible for the development and operational pipeline for AI agents, including code review, model integration, fine-tuning via prompt engineering, and deployment using Git. Implements and monitors agents on Linux systems within CI/CD pipelines and orchestration platforms like Google Workflows to ensure reliability and performance.

UNITED NATIONS POPULATION FUND — Jan 2025 - July 2025
Data Manager Intern

- Responsible for designing data collection tools, managing databases, analyzing and visualizing data, ensuring data quality, and supporting **UNFPA MADAGASCAR** programs with data-driven solutions.

MINISTRY OF THE INTERIOR | ANTANANARIVO — Nov 2024 - Jan 2025
Software Developper Intern

- Model the architecture and database, and develop a management system for the issuance and verification of National Identity Cards (CNI), tailored to the decentralized structure of the districts in **MADAGASCAR**.

CONCENTRIX | Cairo, EGYPT — June 2023 - Sept. 2024
Bilingual (ENG/FR) Data Analyst

- Identifying improvement needs by analyzing agent KPIs and customer feedback in a call center, creating dashboards to drive data-informed decisions.
